

Zoffoli
since 1949

Zoffoli : a family history since 1949

Who hasn't dreamed in front of a world globe?

Its charm has no boundaries... here at Zoffoli we have been conceiving, designing and assembling them for more than 70 years, handing down from generation to generation passion, craftsmanship and company vision that is always open to the future.

The company - **founded in 1949 by Italo Zoffoli** - has been producing for over half a century furnishing globes with a vintage charm and a modern design.

The taste for innovation and the idea of creating unique objects has led us to be the inventors of the **globe-bar**, a piece of furniture for the most exclusive living rooms which, with its internal compartment for glasses and bottles, is perfect for an aperitif from the very heart of the world!

The combination of our craft history together with the most modern technology, has led us to create a collection of **design globes** that stand out for their quality, perfectly furnishing the most contemporary interiors.

Our Zoffoli globes have always been symbol of elegance and class, and their originality is the perfect starting point to add that extra decorative flair to any room in your home.

Our catalogue has a wide offer: whether you prefer a classic style or your tastes are more in line with the latest design trends, we have a globe to suit you.

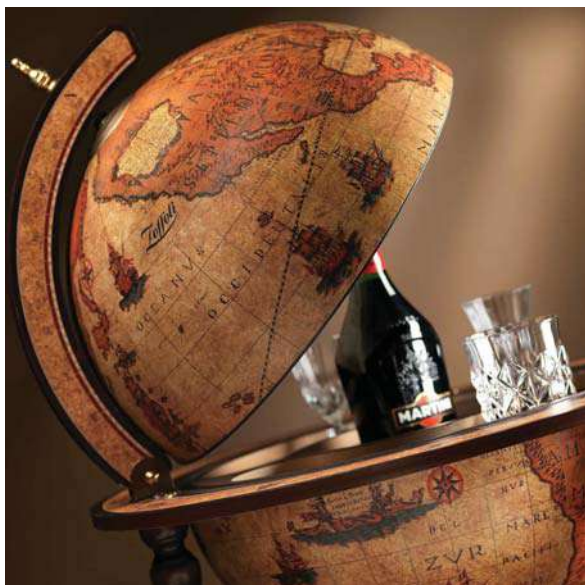

Globe Bars

Innovation and designing unique objects were the driving force behind the **bar globe**: an **exclusive piece of furniture**, sure to catch the eye. Globes with an authentic charm which, like the treasure chests of old, hold precious **crystal glasses** and **prized bottles**.

A passion for fine drinking combined with the most refined taste, surprising guests with style. Classic lines and contemporary design come together for an aperitif from the very heart of the world.

Discover our selection of **bottle-holder globes**!

Our design globes stand out for their essential lines and unique maps. As always, every single component is conceived, designed and manufactured in our country with the deepest respect for **Made in Italy**.

Design Globes

Combining **ancient craftsmanship**, closely guarded since the middle of the last Century, with the **latest technological solutions**, is the essence of our **design globes**.

We offer elegant and geometrically perfect objects made using the **highest quality materials**: our craftsmen work with briar, tanganika wood, stainless steel, techno-leather and the most innovative polymers to deliver high-quality furnishings.

Our workshops produce globes with a striking impact and evocative shapes that can be integrated into the most refined of environments.

Our design globes stand out for their essential lines and unique maps. As always, every single component is conceived, designed and manufactured in our country with the deepest respect for **Made in Italy**.
